### The All4Palestine Society

The All4Palestine Society is a distinguished initiative undertaken by HE Dr. Talal Abu-Ghazaleh, founder and chairman of Talal Abu-Ghazaleh Global (TAG.Global), launched in cooperation with HE Dr. Sabri Saidam, former Palestinian Minister of Education. It was established on September 17, 2011, in Paris - France, and was later officially registered in Amman as a non-profit and non-political Society that aims to highlight the contribution of Palestinians to human civilization. Through this

initiative, Palestinian women and men from around the world are given a platform to narrate their stories of success. This includes those that have contributed to the scientific, cultural, and economic development of humanity, and have made distinguished achievements, whether they are public figures, businessmen, economists, writers, novelists, poets, academics, actors, artists, athletes, or others.

### Vision

To build an electronic database that includes all of the Palestinian men and women who left an indelible mark on Arab and international levels. Such a database shall become a reliable and up-to-date source of Palestinian achievers for human civilization, and a comprehensive reference for those who want to conduct a thorough study of the history of Palestinian creativity in all fields.

### Message

Introducing the excellence and success that Palestinians have accomplished and are still achieving for their homeland and humanity in different fields, starting with science and business, right across the board to comedy and sports. This shall be done by sharing reliable sources that narrate the exceptional stories of those behind such achievements, with the aim of engaging and inspiring future generations.

### The Database

Palestinian creativity and success manifest in all fields of life around the world, despite the challenges and obstacles they have been experiencing at all levels. Therefore, the All4Palestine Society aims to document thousands of these innovators, creators, intellectuals, and artists who continue growing on a daily basis. The database currently includes more than 10000 Palestinian personalities who have succeeded and excelled in different fields.

In line with the vision of Dr. Abu-Ghazaleh to keep pace with technological developments and advancements in the digital world, and to achieve its mission and objectives, the All4Palestine Society website: [www.all4palestine.org](http://www.all4palestine.org) has recently launched a mobile application to enable greater access to its work in promoting Palestinian achievers across the globe, easily and without complication.
